## DR. CARTER ILL IS SUBSTITUTED BY DR. BLUE

\*\*\*\*\* Governor Frear said this morning that Surgeon Blue is a good man, and that he had considerable experience when combating the plague in San Francisco. Surgeon-General Wyman was asked to send a man to Hawaii to look into the sanitary conditions existing here. Surgeon Carter, who was the principal Marine Hospital man engaged in sanitary work at the Panama Canal zone, was nominated by Wyman to come to Hawaii.

\*\*\*\*\* "Carter sick with typhoid fever. Will send Blue from San Francisco. His large experience undoubtedly known to you all. Will cable date later on." "WYMAN."

\*\*\*\*\* Surgeon Carter is unable to come to Hawaii and look into the health conditions here. Governor Frear received the foregoing cable from Surgeon-General Wyman this morning.

## European Immigrants Out One Week Today

On or about November 15, the British steamer Willesden, with a large number of Spanish and Portuguese immigrants, will reach Honolulu. A cable stating that the Willesden had sailed from Portugal on October 2 was received by Dr. Clark of the Immigration Bureau, but the number of laborers on board the steamer was not stated.

"It will take a few days for Campbell and Silva to make up their final figures on the immigrants," said Dr. Clark this morning, "and as soon as he knows definitely how many men, women and children have started for Hawaii, the figures will be cabled to us. I expect to hear in a few days from Mr. Campbell. Certain arrangements have to be made here, and there are many details to be seen to."

The immigrants have been recruited in Spain and Portugal, and it is thought that they are a superior lot. Special Agent Campbell is at present in Gibraltar, or was, rather, at the time that he cabled about the departure of the Willesden.

## A. N. Cederlof's Slayer On His Examination

The hearing of John McMahon on the charge of murdering A. N. Cederlof was continued before United States Commissioner Davis until two o'clock tomorrow afternoon. The matter came up this morning at ten o'clock, but owing to the absence of Mrs. Cederlof, widow of the victim, who was reported unable to be present on account of illness, District Attorney Breckons asked that the case go over until Friday. Attorney E. Murphy, representing the defendant, objected to this, with the result that tomorrow afternoon was set.

Only one witness was examined at this morning's session, this being Dr. Demmey of Schofield Barracks, who testified as to the character of the wound which caused Cederlof's death.

## GEORGE M'KINLEY LOST ON LONELY LANIHULI AND TWO PARTIES SEARCH

George R. McKinley the well known tramp and athlete, and private secretary to Manager Hedemann of the Honolulu Iron Works, is lost somewhere on the mountain ridges in the neighborhood of the Pali and two searching parties are now scouring the adjoining country in search of him. It is feared that he has met with an accident and is unable to make his way back to town.

Yesterday morning Mr. and Mrs. H. J. Holmes and McKinley set out for the Pali, intending to make an attempt to scale the height known as Lanihuli.

They passed through Hildebrand's glen and had got three-quarters of the way up the mountain, which is about 3500 feet in height, when they decided to commence the descent, further progress being regarded as too risky.

Mrs. Holmes, in descending, slipped, and a miniature landslide carried her forty feet. Luckily she sustained only minor scratches and bruises.

McKinley was on the upper side of the dislodgement of earth, and shouted to Holmes that he couldn't get down that way. Holmes then directed him as to where he could strike the Lanihuli trail, and the party separated. Mr. and Mrs. Holmes coming into town. This was at 12:45 p. m. and McKinley had ample time to get home before dark.

He didn't put in an appearance last night, and this morning was still missing, so Manager Hedemann notified the police and a search party was sent out to act in conjunction with a party dispatched from the Honolulu Iron

## DR. M'GREW BREAKS LEG

Dr. John S. McGrew, the Nestor of Honolulu's medical fraternity, had the great misfortune of breaking his leg this morning.

At his advanced age, the ninetieth anniversary of his birth coming due in December next, it needs not be said that the accident is a serious one. Yet it is comforting to relate that, in the opinion of the attending physicians, immediate danger of the venerable doctor's life is not to be apprehended. "He may live for years yet," the Star is professionally advised this afternoon.

Doctor McGrew was taking the morning air on the lanai of his residence, at Kapiolani, Lanialilo and Hackfield streets, a little after nine o'clock, when he was seized with an attack of dizziness and fell, fracturing his right leg at the hip joint.

His son-in-law, Dr. C. B. Cooper, was immediately summoned by telephone to the old gentleman's assistance and autoed swiftly to the place. On ascertaining the nature of the injury Dr. Cooper called other surgeons in consultation, bringing Doctors C. B. Wood, J. H. Raymond and W. C. Hobdy to the bedside of the sufferer. Needless to say all that the combination of skill could do to make the patient comfortable has been done and Dr. McGrew at latest word was resting as easily as could be expected.

Dr. McGrew is one of Hawaii's historical characters. Both as a veteran of the Civil War and the "Father of Annexation" his person is patriotically revered, while from the many years of his practice as a popular and kindly family physician in Honolulu, until old age compelled his retirement, his name is a household word in this community, the heart of which will throb with sympathy for himself and his family on account of the painful misadventure here related.

## HONOLULU PORTUGUESE THANKED BY THEIR HOMELAND GOVERNMENT

"Lisbon, Outubro 8, 1911.

"Consul de Portugal, Honolulu.

"Presidente da Republica e Governo agradece felicitações da Colônia Portuguesa.

Of which the following is a translation:

"MINISTRO OF FOREIGN AFFAIRS."

This pleasant message is in return for the greetings cabled hence on the occasion of the local celebration of the first anniversary of the Republic of Portugal last week.

## HEALTH OFFICIALS VISIT HAWAII

Tomorrow, on the steamer Mauna Loa, President Pratt of the Board of Health will leave for Hawaii. He will be accompanied by Dr. Shepherd, E. A. Mott-Smith and C. S. Weight. The party will disembark at Kailua and proceed, via Kona and Kau, to Hilo. Thence the party will proceed along the Hamakua coast to Kukuhihale and, from that place, will journey to Kohala, by way of Waimea.

The object of the trip is to look into health matters on Hawaii, and in all, ten days will be taken up on the trip. The party will catch the Mauna Kea at Mahukona, a week from next Friday, and will return to Honolulu direct.

## DEPUTY ROSE ROASTS POPE

Deputy Sheriff Rose takes exception to the statement by Mr. Pope of the department of education, appearing in this morning's paper, to the effect that the department could not do anything toward abating the truant nuisance because it had no funds with which to pay a special officer.

He further stated that the sheriff's deputy had this matter in hand and he either took no notice of it or dispatched policemen who utterly disregarded his instructions.

"I am going to see Mr. Pope about this statement," said Deputy Rose this morning. The sheriff some time ago appointed an officer to look after the truancy work. "He gives his whole time to the matter and is constantly on the move from one end of the island to another. His name is Lapana Keaweopole. If this man has been neglecting his duty why didn't Mr. Pope report the matter to the police?"

Two hundred acceptances have been received for the Hands-Around-the-Pacific banquet to Percy Hunter of Sydney at the University Club on Wednesday.

## MISSING GIRL HAS BEEN FOUND

Virginia Ayres was restored to her home this morning by Simeon Kama, a son of Louis Kama, who was recently arrested on a charge of stealing a pearl pin from the girl.

Mrs. Ayres went down town and when she returned the little girl was back in the house. She said that Simeon had found her and brought her back, and that she slept by the roadside in the bushes for two nights.

It is evident that the child has been instructed to tell this story by her abductors and everything points to the conclusion that she was to have been taken away from town in a day or so, but that the article in this morning's paper frightened the individual who took her away and deterred him from his purpose.

He evidently kept the girl in hiding till he saw Mrs. Ayres leave the house and then returned her.

Virginia Kahana, the eleven-year-old adopted daughter of Mr. and Mrs. W. H. M. Ayres mysteriously disappeared from her home near Sixth avenue, Kaimuki, on Saturday afternoon, and had not been seen or heard of until this forenoon, as above stated.

## FIFTH CAVALRY GO ROUND ISLAND

On Saturday morning the entire Fifth cavalry left Schofield Barracks on a march around Oahu. A score of army wagons accompanied the regiment, and spare horses were also taken along. The jackass battery brought up the rear of the troops.

The regiment camped at Kahana last night, and this morning came through to Honolulu via the Pali. General Macomb and staff met the cavalry at the Pali and rode to Fort Shafter with the regiment.

The march was a very successful one, and the men and horses came through in good shape. The regiment will return to Schofield Barracks tomorrow.

## KANEOHE CHURCH FUND OVER \$1000

Henry Cobb-Adams reports he has collected to date \$1079.50 for the new Kaneohe church. He has sent out 127 letters, from which but a few replies have been received. Mr. Cobb-Adams hopes all those to whom he has written will soon reply one way or the

other, as it will be necessary by October 31 to report to H. L. Kerr, architect, what amount is going to be assured, so that he may know whether it will be necessary to reduce the size of the church from what was originally planned.

The supervising principals of the Territorial schools all called on Superintendent Pope this morning and discussed the affairs of their schools.
